

Lena Wunderlich

Curriculum vitae

EDUCATION

M.Sc. Biological Science 10/25 - now

University of Konstanz
Specialization: Evolution, Ecology & Behavior

Semester Abroad 07/24 - 12/24

University of Stellenbosch, South Africa
Funded by the Baden-Württemberg Scholarship

B.Sc. Biology 10/21 - 09/25

University of Hohenheim
Specialization: Evolution & Ecology

FIELD EXPERIENCE

Volunteer in Wildlife Rehabilitation 08/24 - 10/24

Ashia Cheetah Conservation, South Africa

- Assisted in daily care and monitoring of cheetahs
- Conservation and rehabilitation in a field based environment
- Hands-on experience in animal behavior and wildlife management

Zoological Field Excursion 06/24

Pula, Croatia

- Trained in species identification and ecological observation in the field

QUALIFICATIONS

Drivers License
PADI Open water diver

LANGUAGES

German: C2
English: C1
Spanish: A1

RESEARCH EXPERIENCE

Research Assistant 03/26 - now

Department of Collective Behavior, Max Planck Institute of Animal Behavior, Konstanz
Advisor: August Paula

- Research on animal behavior using computer vision methods for automated tracking of individuals in large video datasets
- Applying machine learning methods to detect and analyze animal movement patterns
- Processing of large datasets for behavioral analysis

Intensive Field Course in Marine Ecology 06/26

Behavioral Evolution Lab, Max Planck Institute of Animal Behavior, Konstanz
Advisor: Alex Jordan

- Completed a two-week intensive field course in marine biology
- Independently designed and conducted a research project, including data collection and coordination
- Communicated research findings through a scientific poster presentation

Research Project on Primate Behavior 04/26 - 05/26

Comparative Joint Action Lab, University of Konstanz
Advisor: Raphaela Heesen

- Collected behavioral data on chimpanzee conflict interactions for a zoo-based research project
- Coded chimpanzee behavior from video recordings using scoring software (ELAN)
- Gained practical experience in primate observation and event/all-occurrence sampling

Research Project on Decision Making in Ants 11/25 - 12/25

Department of Collective Behavior, Max Planck Institute of Animal Behavior, Konstanz
Advisor: August Paula

- Collected Matrix VR Data on decision-making and interactions between ants
- Built and prepared experimental structures for behavioral experiments
